

# Fall 2024

## CLINICAL AND TRANSLATIONAL RESEARCH SEMINAR SERIES

The **Advance RI-CTR Clinical and Translational Research Seminar Series** showcases clinical and translational research from across Rhode Island. This series features the best of both worlds: outstanding science from  expert investigators across the translational spectrum, alternating with  Advance RI-CTR's awardees, presenting their early research. Seminars are held virtually **September-May**, on the **second Thursday of each month**, from noon to 1pm ET.

 **9/12 | Gaurav Choudhary, MD**  
"Pulmonary Hypertension: Definition, Epidemiology and Novel Therapeutic Targets"

 **10/10 | Maria Steenland, PhD & Ben Brown, MD**  
"Access to long-acting reversible contraception removal services among Medicaid-covered postpartum women"

 **11/14 | Joanne Wilkinson, MD**  
"Diabetes Health Equity for Urban Latinx Populations"

 **10/10 | Kathryn Grive, PhD**  
"Effects of maternal cancer therapy on daughters' ovarian health and fertility potential"

+

 **11/14 | Thaís M. São-João, PhD, MSN, RN**  
"Commercial Fishermen in RI: A Pilot Study on Cardiometabolic Health and Productivity"

 **12/12 | Susan Cu-Uvin, MD**  
"Global Burden of Cervical Cancer"
